

We, are among the reputed names engaged in manufacturing and supply of a wide range of **Machine Tools Protection Equipment** under **“EISEN”** brand. Different machines have varying protection requirements. We have options to cover your assets, no matter what you need.

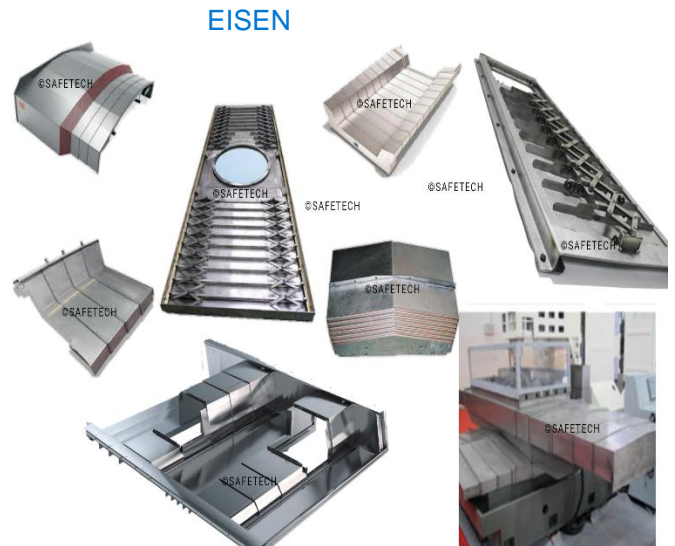

We develop perfect protection, safe systems that protect guideways, spindles, and axles from damage & contamination. Thus avoiding expensive down times and facilitating optimal production processes.

We are the professional manufacturer engaged in research, development, production, sale and service of following products,

Telescopic Covers:

Durable protection of slide ways & precision machine components from all types of chips & coolants.

- High grade steel sheets – 1.5mm to 3mm.
- All shapes, mounting options & wiper systems can be customized.
- Options for applications with X, Y, Z travel.
- Protection of ball screws.
- Heavy duty steel box construction
- Repairable

Bellows Covers:

Selected based on Operating conditions.

Types Of Bellows:

- Coated fabric bellows
- Steel Clad bellows.
- Thermic welded Bellows
- Aluminum Fabric Bellows etc.

Apron Covers:

Flexible apron covers are acritical components of machine protections.

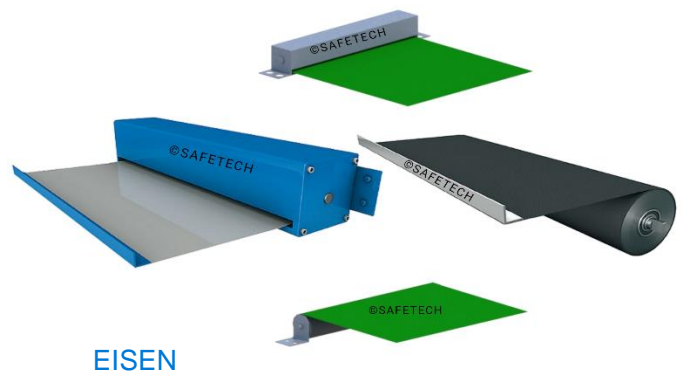

- For use on general chip
- Guarding applications for all chip types & loads

Rollway Cover:

Available in coated fabric, stainless steel, aluminum extrusions.

- Open reel or Protective canister design.
- Space saving design.
- Cost effective
- Long lifetime.

Body Enclosures:

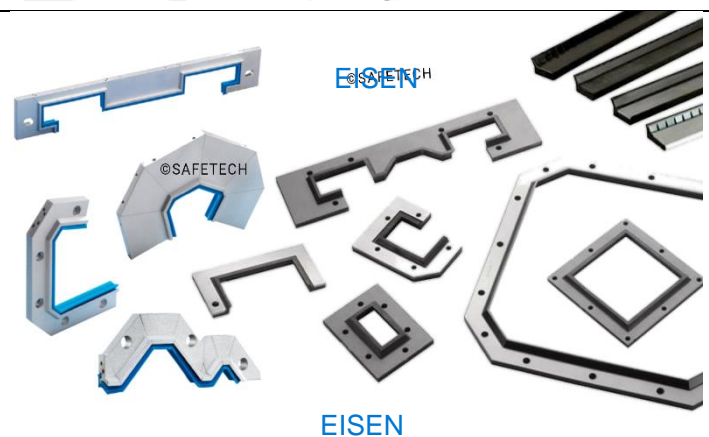

- Protects machine from environment.
- Protects workers from dangerous machine operations.
- Available with doors for easy access to the machine tool.

Wipers:

Way wipers away chips and oil as the machine is in operations and are available in standard or custom profiles.

- Wide range of stock wiper design.
- Any custom shapes.
- Excellent durability.

Telescopic Cover Repairing Service:

Our repair is for all types of damaged covers.

- Fraction of cost compared to new cover
- Preventive and predictive maintenance.
- Extensive replacement spare parts inventory.

EISEN

Walk on & pit safety covers:

Removable solution for deep pits built to hold heavy machinery or contain hazardous chemicals, linear guides, and tanks of all sizes.

Application:

- Open Pits
- Way covers
- Chemical tanks
- Concrete foundations
- Auto maintenance shops

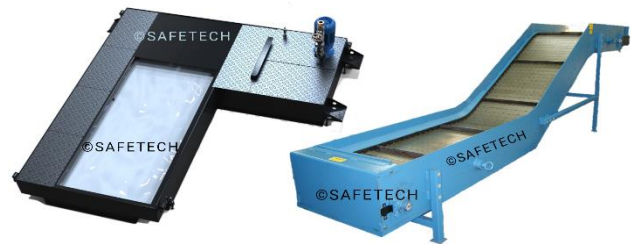

EISEN

Hinged Belt Conveyors:

A versatile proven conveyor solution of a variety of materials, chip types, and chip loads.

Coolant Tanks:

Using these tanks coolant is quickly cleaned and recycled during machining process.

EISEN

Lift Table Bellows:

Many safety conscious companies are insisting on lift table bellows in order to stay up to date with today's safety standards.

Machine Roof bellow covers:

The lightweight, movable folding machine roof can be custom designed for any size & most guidance systems.
